Therapeutic Guidelines Limited (TGL) is an independent not-for-profit organisation. Its aim is to promote the quality use of medicines, and it does this through the writing, publication and sale of Therapeutic Guidelines. The Therapeutic Guidelines range of digital and print products is widely considered to be an unsurpassed source of best practice therapeutic information. Therapeutic Guidelines are written principally for prescribers (general practitioners and trainee physicians in particular) to provide clear, practical, succinct and up-to-date therapeutic information for the management of patients with specific conditions.
