..Shexie Pty Ltd is a 100% Australian owned company that for over 20 years has produced quality software for medical practices....
Shexie Medical System is the ultimate clinical and practice management software package used by many hundreds of practices around Australia.
...Shexie Platinum is the next generation of this software. It is technically and practically superior to any other product in the market place. It is so easy to use that new staff can be up and running with minimal training, and existing staff can provide better service for clients rather than spending all their time punching away at a keyboard. Clinical and administrative tasks can be done so quickly and easily that it saves the practice on time and costs....Platinum uses the power, reliability and scalability of SQL Server to enable practices of any size to take advantage of it's many features. Platinum can be run locally on PCs, on hosted servers over the internet, or in the cloud....
Our software is ideal for surgical, specialist, anaesthetic or diagnostic practices of any size. With many fully integrated features making it the easiest to use and most fully functioned product available.
...Contact Shexie Help Desk on 1300 743 943 (1300 SHEXIE) for further information, or to organise a free demonstration and quote for your practice. Visit our Website for more details and list of features...
