AI-powered clinical documentation solutions Nuance provides a more natural and insightful approach to clinical documentation, freeing clinicians to spend more time caring for patients. Nuance healthcare solutions capture and communicate more than 300 million patient stories each year helping more than 500,000 clinicians in 10,000 healthcare organisations globally, providing a more complete and accurate view of patient care, which drives meaningful clinical and financial

outcomes. **Dragon Medical One:** secure, cloud-based clinical speech recognition Nuance Dragon Medical One is a secure, cloud-based speech recognition solution that allows clinicians to document the complete patient record across solutions, platforms and devices regardless of physical location using voice, while allowing healthcare organisations to easily deploy medical speech recognition across the enterprise - all while saving time for IT staff and boosting productivity and efficiency for clinicians. Nuance solutions: **Dragon Medical One Cloud-based speech recognition**
