VMORE Virtual Practice Solutions, Practice Management and Secretarial Services for Surgeons and Physicians. VMORE is an Australian-based, virtual professional services firm for Australian Surgeons and Physicians; digital workflows along with dedicated secretarial and management expertise to support provider reputations in delivering patient-centric care. We offer Specialists with flexible practice options ranging from secretarial support through to a complete virtual practice. Having over 15 years experience delivering the virtual medical office model, VMORE has seamlessly married people and technology to support the clinical and business operations of a private specialist practice. VMORE partners are carefully curated, industry leading vendors who align with our commitment for seamless, secure and flexible healthcare. Specialists starting in private practice retain control and independence, benefit from group pricing and have a complete and competent team of practice professionals to lean on. In healthcare, reputation is everything. We don't risk ours. You shouldn't risk yours.
