Civica is a market-leading specialist in software, technology, and ICT services. For more than 40 years we've been delivering solutions for health and care drawing on the experience of our people and collaborating with health and care professionals. We work with more than 500 health and care providers worldwide to help them deliver better outcomes for their patients. We've developed business-critical software, digital solutions and managed services that will enable you to drive improvements across clinical, financial and operational settings. Our focus is on getting the right information to the right individual at the right time, to help front-line services be more responsive, enhance patient care, increase workforce efficiencies and deliver essential cost savings.
