

ZEN Enterprise

Canberra City NSW 2600
Australia

Phone: 0403 149 199

ZEN Enterprise are an Australian company providing software called ZEN CLM, to support the services commissioning lifecycle, including provider and contract management. Primary Health Networks (PHN's) and State Governments in Australia undertake the commissioning of services to improve client outcomes. ZEN assists PHN's and Government in this journey through digitising the service commissioning lifecycle improving consistency, efficiency, transparency and information quality to support a better client experience. The ZEN CLM software captures all of the stages in the commissioning lifecycle and provides automation and business process workflow with analytic capability and outputs to meet executive and Government reporting obligations.
