When your business needs more than just a telco

As a leading Tier 1 telco and network solutions provider, Vocus connects healthcare businesses across Australia and the world. We own and operate a 30,000 km fibre network, connecting all mainland capitals and most regional centres in Australia and New Zealand to Asia

We are trusted by more than 200 government agencies and nearly two-thirds of the ASX 200

We are experts at bringing together all your network solutions across data networks, internet, unified comms, cloud services, and data centres so you can focus on the things that matter. Our expertise, challenger mindset, and unique customer focus is what our healthcare customers clients say sets us apart. Our forward-thinking approach and specialist channel partners enable us to deliver the holistic solutions necessary to help your business innovate and grow. We call it brilliant made simple.
